

# Baby's hospital bag checklist

The hospital will provide many of the things you'll need to care for baby in those first few days (including diapers), but there are some necessities you'll need to bring with you as well:

- Approved + properly-installed car seat
- Coming-home outfit, hat + socks/booties
- Blanket or swaddle
- Onesies
- Pacifiers
- Burp cloths
- A few diapers + some wipes, just in case
- Your baby book for baby's first footprints

**Notes + extras to remember:**
